📞 647 - 227- 2015
⌨ MattMcLennan

A junior full-stack developer who thrives in a challenging environment and enjoys front-end development.

A former investment analyst, diving deep into the world of web development. Interested in working with a strong team of like minded developers whom I can learn from. Would love to learn new languages and increase my knowledge in Ruby and Javascript.

Outside of coding, I am a hockey player, investment enthusiast and dog lover!

Skills

Sinatra

DATABASE
SQL / Postgres

TESTING
TDD / RSpec

OTHER
Excel
Word
Github

Projects

myPersonalFitnessTrainer (In progress)
Ruby on Rails, Javascript, Highcharts(JS), jQuery, AJAX, Postgres, Fitbit API, Materialize CSS Framework, HTML
Web application that offers users a full out personal fitness trainer experience. The user is able to track their current workout progress and a daily diet meal plan is set out for the user. Utilized the Fitbit API and an internal food database.

Portfolio Analyzer
Ruby, Javascript, AJAX, jQuery, Web scraping, Rails, HTML, CSS, Bootstrap
Web application allowing a user to submit a number of stocks to analyze as a portfolio and displays to the user total portfolio fundamentals (financial ratios) along with portfolio sector exposure and market cap exposure.

Food Mapper
Ruby, Sinatra, HTML, CSS, Javascript, jQuery, AJAX, Postgres, Google Maps API, Zomato API
A web application that shows users a map of all the restaurants listed near them and then displays the top 10 ranked restaurants
